

Hosted PBX for Real Estate Businesses

The only time location doesn't matter

All great realtors know the importance of location. Hosted PBX technology allows you to travel from location, to location without ever losing your connection to your customers. No matter where you are, or where you need to go, Hosted PBX can keep the conversation going so you can build relationships with your customers and confidence in your business.

The reliability and flexibility of hosted PBX makes it perfect for companies that are growing. With features that improve productivity and efficiency, this technology enables you to do more with the resources you have today, and plan for where you'll take your business tomorrow.

Hosted PBX: The solution for businesses on-the-go

Whether you're a small, medium or large enterprise, FairPoint Communications can offer you a powerful feature-rich phone system without the cost or hassle of having your own on-site, system installed.

FairPoint's Hosted PBX service delivers the power of a PBX over our private, secure Ethernet connection, leaving the maintenance, upgrades and monitoring to the experts, so you can focus on your business. FairPoint's Hosted PBX provides:

- **Future-proof technology and flexibility**
 - Our highly- flexible, scalable infrastructure can grow as your business grows
 - Since your PBX is virtualized in the cloud, you can bolt on new services quickly and easily
 - Bring mobility to your communications through web-based call control tools, PC softclients, and mobile phone and table applications
- **End-to-end reliability**
 - Leverage local support and 24/7 management
 - Highly reliable and robust communications network, owned and maintained by FairPoint
 - Re-route calls to an alternate number in the instance of a power outage
- **Easy management**
 - Move or change individuals'communications profile with the click of a mouse
 - Enable and disable features remotely
 - Tailor calling features to individuals or group

Top features for real estate businesses:

Web-based call management –

Simultaneously ring your business phone and your mobile phone so that you are always within reach of customers, even when you're at a showing.

Call jump – If you need to change location while talking to a customer, this feature transfers the call seamlessly from your office to your mobile phone (and back) without the caller even noticing.

Voicemail with notification management –

You receive an email to notify you of a voicemail so you can followup with every caller and never miss an offer.

At FairPoint Communications, we don't just sell products and services — we listen, learn and help you develop the kinds of solutions you'd create yourself if you had decades of telecom expertise and enough time to focus on optimizing your telecom plan. Whatever your communications need, we can help.
